

Congressman Rick Paulsen visited with American Flexible Products of Chaska August 15, 2017

American Flexible Products is a 100% ESOP that creates custom fabricating foam, rubber, plastic and other flexible materials. Carla, the President and CEO, shared the history of their company and their ESOP with the Congressman. Carla highlighted the challenges their owners faced when setting up the ESOP. Congressman Paulsen was able to share a bit about the ESOP bill he is currently sponsoring and offered reassurance about ESOP protections with the upcoming tax reform discussions. Congressman Paulsen toured their 35,000 square foot facility where we met with many of the employee owners.
